

## **MEDICATION DELIVERY SERVICE**

We offer a medication delivery service to those patients who find it difficult to collect their medication.

If you are housebound, work full time or just don't like coming out in the winter – why not ask for your medication to be delivered.

At the moment we only deliver medication on a Thursday but are looking to extend this service in the near future.

If you wish to apply for this service please speak to one our dispensary staff who will ask you to complete the necessary consent form.
